We support XM radio's right to broadcast the traffic & weather. I don't understand why anyone would want to leave a traveler uninformed of the local conditions, and we are all certainly entitled to listen to whatever means of news/radio that we choose and we are paying for XM - we are not stealing this information. I do not understand NAB's position on this nor do i support it. Please reject the NAB petition 04-160 and protect all of our rights as we have come to enjoy in the great USA. Thanks. Carol Bentley
